Contributes to Strategic Innovation Within: (multiple options possible)

Service Development		Digitalization of Services		Competence Development	
---------------------	--	----------------------------	--	------------------------	--

Question 1: Problem

What specific healthcare issue do you aim to address? Please describe the challenge and identify the stakeholders or patient groups that will be most impacted. (max. 150 words)

Question 2: Existing Solutions

What is already known about existing solutions to the problem you are addressing? Has anyone else attempted to solve it? Please describe your current understanding of the specific knowledge-to-action gap and the context of care. (max. 150 words)

Question 3: Proposed Solution and Societal Impact

What is your proposed solution? Provide a brief overview of your approach, expected outcomes, and impact, along with how these will be measured. How will your solution address the needs and motivations of stakeholders and healthcare services? (max. 200 words)
